BENGAL LEGISLATIVE COUNCIL DEPARTMENT.

NOTIFICATION.

No. 1992L.C.—23rd December 1941.—In pursuance of the provisions of rule 51 of the Bengal Legislative Council Procedure Rules, the following Bill which was introduced in the Bengal Legislative Council on the 19th December, 1941, is hereby published for general information together with the Statement of Objects and Reasons annexed thereto.

THE ADVOCATES' ROBES BILL, 1941.

WHEREAS it is expedient to help in the creation of a unified Bar for the Province of Bengal and as a necessary step towards that end to prescribe a uniform robe for Advocates of the High Court, it is hereby enacted as follows :—

1. This Act shall be called the Advocates' Robes Act

2. This Act shall come into operation in this whole of Bengal on the day on which it is published in the *Calcutta Gazette* and it shall apply to all Advocates enrolled as such in the High Court.

3. In this Act the words "High Court" shall mean the High Court of Judicature at Fort William in Bengal in its Original as well as Appellate Jurisdiction and the word "Advocates" shall have the same meaning and import as in the Indian Bar Council Act XXXVIII of 1926.

4. Within a period to be prescribed by the High Court not being more than three months from the date on which this Act comes into force the High Court shall prescribe one uniform robe for all Advocates appearing in Court without reference to any other robe such Advocates might be entitled to wear as a member of any learned body.

STATEMENT OF OBJECTS AND REASONS.

It appears that the question of robes for its Advocates has long been agitating the High Court at least since 1929.

While trying to dispose of the matter in the interests of uniformity the Court made rules which led not to uniformity but really to diversity. At present there are three classes of robes worn in the High Court—

(*i*) An Advocate's robe prescribed by the Court,

(*ii*) A Barrister's gown,

(*iii*) A blue gown prescribed by the Court in 1907 for Vakils.

Recently there have been instances where the Court has itself not followed its own rules.

The idea for a long time has been to have a self-contained Indian Bar. Uniformity in robes is a step towards that end.

This Bill is therefore introduced to secure that end.

NOTIFICATION.

No. 1994L.C.—23rd December, 1941.—In pursuance of the provisions of rule 51 of the Bengal Legislative Council Procedure Rules, the following Bill which was introduced in the Bengal Legislative Council on the 19th December, 1941, is hereby published for general information together with the Statement of Objects and Reasons annexed thereto.

THE CODE OF CRIMINAL PROCEDURE (BENGAL AMENDMENT) BILL, 1941.

A

BILL

to amend the Code of Criminal Procedure, 1898, in its application to Bengal.

WHEREAS it is expedient to amend the Code of Criminal Procedure, 1898, in its application to Bengal, in the manner hereinafter appearing ;

It is hereby enacted as follows :-

1. This Act may be called the Code of Criminal Procedure (Bengal Amendment) Act, 1941.

2. In section 196 of the Code of Criminal Procedure, 1898, in its application to the Province of Bengal (hereinafter referred to as the said Code) after the word and figures "section 127", the words, figures and letter, "and section 171-F so far as it relates to the offence of personation" shall be inserted.

3. In Schedule II to the said Code—

(*a*) In the entry in the second column of the items relating to section 171-F the words "and personation" shall be omitted.

(*b*) After the said item so amended the following item shall be inserted, namely

Do.	Personation at an election.	May arrest without warrant	do.	do.	do.	do.	do.

and

(*c*) in the entry in the third column of the item relating to section 171-G for the word "Ditto" the words "shall not arrest without warrant" shall be substituted.

STATEMENT OF OBJECTS AND REASONS.

With the enlargement of franchise false personation at elections to local bodies and Legislature has increased. It is necessary that the offence of personation should be taken out from the category of section 196 of Criminal Procedure Code and should be made a cognizable offence.

Factory smoke.

The Bengal Smoke Nuisances Commission commenced its activities in 1906 for the abatement of smoke emission within the areas controlled by the Calcutta and the Howrah Municipalities. The average emission

of black smoke recorded per chimney was at that time 1·31 minutes per hour; to-day it stands at ·09 minutes. Much of this success is due to the generous co-operation of the factory owners with the Commission. It is realised that smoke is coal and in its prevention lies a gilt-edged investment.

General control by the Commission.

The Commission which represents all the interests concerned in the abatement of smoke nuisance held 11 meetings in the year under review. It maintained contact, as in the past, with the various smoke departments, fuel, engineering and research institutions in Europe and America and kept abreast of the latest progress in the scientific use of fuel towards the abatement of industrial smoke.

During the year action was taken as under—

Offences reported for departmental action—3,372.

Offences reported by telephone for departmental action—774.

Inspections and tests of installation—4,197.

Statutory warnings served—16.

Prosecutions—41.

Convictions—35.

In addition to the above preventive action 1,082 steam ships and 450 locomotives were reported to the local marine and railway authorities for their usual departmental action which in all cases was readily undertaken.

Since the appointment of the two smoke observers in October 1938 the area under the control of the Commission including the river has been kept under constant observation. The Inspectors having thus been relieved of observation duty, were engaged in inspection duty and in imparting technical advice to the offenders.

The Inspectors met with difficulty in proving in Court the official records of smoke observation in prosecution cases and the Court Inspector had to be engaged to conduct contested cases. The maximum fine imposed for offences under the Act was Rs. 150 and the minimum Rs. 4.

Of the 41 prosecutions which were launched (Appendix II) one was acquitted and one was warned. Five cases had to be withdrawn because the requirements of the Act were complied with in the meantime.

It may be again stated that the policy of the Commission is to give advice and not to be unduly repressive.

Observation of smoke.

A constant watch is kept on smoke nuisance from the Central Smoke Observatory which is equipped with a telephone so that the owner or manager of an offensive chimney may be called up and the emission of smoke of prohibited density immediately brought to his notice. Observation of locomotives, steamers, launches, road-rollers and minor industrial plants are taken locally. The total number of observations made during the year was 8,749 against 10,053 of the previous year.

Plans for furnaces, flues and chimneys.

Well designed plants are necessary for smoke prevention and fuel economy and it is not only obligatory but convenient to consult the Commission whose wide experience is always at the disposal of the public. Smoke prevention must begin at the furnace and not at the chimney top. Properly proportioned furnaces, flues and chimneys increase the power of the plant and reduce the overload and fuel costs and, on the other hand, avoid trouble in complying with the requirements of the Smoke Nuisances Act.

During the year the Commission examined and approved 82 plans of which 54 were made in the office of the Commission, covering nearly all types of industrial furnaces. The number of plans approved by the Commission since 1916, when the Act was amended to govern construction of or alteration to plants, now totals 1,601. The low average emission of smoke per chimney (Appendix I) has been attained through this most important measure.

The total fees received during the year on account of plans, etc., are detailed below :—

	Rs.
For making plans	502
For approval of plans	743
For final inspection of chimney, etc., and grant of permission	1,213
Total ...	2,458

Complaints.

The Commission cannot with its small staff regularly keep in touch with every case of smoke nuisance within its controlled area of approximately 80 square miles. It has again been indebted to the public for bringing cases to its notice by means of complaints. During the year 83 complaints were received against 84 in the preceding year. The Commission once more assures the public that on receipt of a complaint prompt and careful enquiry is made. Relief is given wherever possible and the Commission endeavours to see that industry is not subjected to unreasonable demands.

Reduction of smoke by electricity and gas.

Electricity.

The application of electricity and gas to meet domestic requirements has an important bearing on the general comfort and the health of the public and it is pleasing to record that there is an increased demand by property owners for smokeless appliances as these contribute to the city's health.

Electric appliances both for commercial and domestic use should be encouraged as permanent remedies for atmospheric pollution.

The Calcutta Electric Supply Corporation state as follows:—

"During the year 1940 they have signed agreements for the supply of electricity to large works and mills in their licensed areas to a value of over 13,000 H. P. of which more than 8,800 H. P. is required to replace the existing steam turbines and steam engines. In addition to the foregoing there have been a number of smaller works and factories which adopted electrical drives in place of steam engines during the past year".

Gas.

The contribution made to the solution of the city's smoke problem by the Oriental Gas Company, Ltd., increases every year. They report a continued increase in the installation of cooking and water heating appliances for domestic purposes and they have fitted up several large blocks of flats with gas appliances during the year. They state that the demand for gas heated appliances during their last financial year (ending 30th June 1940) continued very satisfactorily.

During the period the number of appliances installed showed an increase of 1,024 nett.

Three hundred and eighteen cooking appliances comprising cookers, hot plates, grillers, ring burners were fitted for domestic, hotel and restaurant use.

Three hundred and twenty-nine water heating appliances (geysers, etc.), were installed.

They have also been very successful in the industrial field and the total number of industrial appliances fitted within the last year was 377 comprising muffle and oven furnaces, steam boilers, large ring burners, tinmans stoves, biscuit baking ovens, etc.

The value of gas as a smokeless fuel in a convenient form is readily appreciated by property owners and residents and, in many cases, gas appliances have been installed to take the place of coal "chulas" and solid fuel boilers.

Inspectorate.

During the year Mr. R. Grant, Chief Inspector and Secretary, was assisted by Mr. B. N. Mitter and Mr. B. Mukerjee, Inspectors of Smoke Nuisances.

Conclusion.

The Commission records its grateful thanks to the various smoke fuel and engineering research departments. Thanks are also due to those local owners, managers and engineers whose co-operation and valuable assistance have greatly helped the Commission, and to the technical staff for their energy and loyalty in carrying out the policy of the Commission.

DEPARTMENT OF AGRICULTURE, BENGAL

Dacca, the 19th December 1941.

First Forecast of the Spring Oilseed Crops of Bengal, 1941-42.

(*Note.*—On an average of the five years ending 1939-40, the area under linseed in Bengal has represented some 3·4 per cent. and that of rape and mustard 12·6 per cent. of the total area under these crops in India.)

Explanatory.—Three forecasts are issued for the Spring Oilseed Crops. The present one deals with the area sown and the condition of the crops.

Area sown.—Spring oilseeds are chiefly grown in the Presidency, Rajshahi and Dacca Divisions. In the other two divisions the cultivation is not so extensive. The total area under these crops (excepting *sesamum* for which separate forecasts are issued) is returned at 940,300 acres this year against 942,700 and 952,300 acres respectively in the corresponding and the final forecasts of last year.

Character of the season.—The weather at the outset was favourable for preparatory tillage and sowings which commenced generally in normal time; but the operations were somewhat delayed in places owing to heavy rainfall. Subsequent weather conditions were helpful for late sowings and favoured the growth of the crops. In some districts, however, heavy rainfall interfered with the growth to some extent. The present condition of the crops may be regarded as fair.

M. CARBERY,

Director of Agriculture, Bengal.

Transactions designed to avoid or reduce liability to excess profits tax.

6. After section 10 of the said Act the following section shall be inserted, namely:—

"10A. (*1*) Where the Excess Profits Tax Officer is of opinion that the main purpose for which any transaction or transactions was or were effected [whether before or after the passing of the Excess Profits Tax (Second Amendment) Act, 1941] was the avoidance or reduction of liability to excess profits tax, he may, with the previous approval of the Inspecting Assistant Commissioner, make such adjustments as respects liability to excess profits tax as he considers appropriate so as to counteract the avoidance or reduction of liability to excess profits tax which would otherwise be effected by the transaction or transactions.

(2) Without prejudice to the generality of the powers conferred by sub-section (1), the powers conferred thereby extend—

(a) to the charging with excess profits tax of persons who but for the adjustments would not be chargeable with any tax or would not be chargeable to the same extent;

A Bill to make provision for the restoration of the Buddha Gaya Temple and its premises to Buddhists and for the better management of the same.

WHEREAS it is expedient to make provision for the restoration of the Buddha Gaya Temple to the Buddhists and for the better management of the same; It is hereby enacted as follows:—

(*3*) It shall come into force immediately.

(*2*) Any vacancy that occurs in the Committee shall be reported by the Committee to His Excellency the Governor General within three months from the date of its occurrence.

Rights of Hindus.

5. Notwithstanding anything contained in this Act or in the rules framed thereunder, Hindus of every sect shall have access to the Temple to worship the image of Lord Buddha and to the Temple Land to offer Pinda under the Bodhi Tree to the north of the Temple, provided that nothing in this section shall enable any person to slaughter goat or any other animal on the Temple Land for any purpose religious or otherwise.

STATEMENT OF OBJECTS AND REASONS.

The Maha Bodhi Temple at Buddha Gaya is the most sacred shrine of the Buddhist world as it stands on the spot where Lord Buddha attained Supreme wisdom. It is to the Buddhist what Mecca is to the Muslim, Ajodhya to the Hindu and Jerusalem to the Christian. It is in the hands of a non-Buddhist, the Saivite Mahanth for Buddha Gaya. For many years past the Buddhists have been greatly dissatisfied with his management of the Temple and the Temple Land. They have expressed their strong desire to have them restored to their control. The desire is but natural and this Bill is intended to make provision for the better management of the Maha Bodhi Temple and the Temple Land and for their restoration to the Buddhists of India, Burma and Ceylon without prejudice to the right of Hindus to worship the image of Buddha in the Temple and to offer Pinda at the Bodhi Tree to the north of the Temple.
